For children, co-op is a safe and nurturing place in which to explore and have fun. Social, emotional and intellectual skills are learned through cooperative and creative play.

For parents, it's a place to improve parenting skills, help shape their child's first school environment, and form lasting friendships.

We have 5 classes for children 12 months to 4 years. We are part of the North Seattle College Cooperative Preschool program.

CLASS	AGE GROUP	MIN AGE BY 8/31	CLASS DAY	CLASS TIME
